

Rockdale County Stormwater

Ninety Day Vegetation Letter

This letter is concerning the property at the address of

_____ that does not yet have adequate vegetation on the disturbed areas but has been seeded. This is to inform Rockdale County Stormwater that all of the disturbed areas will be seeded, including any bare spots, and will have 100% vegetative coverage at a minimum of 70% density within 90 days or those areas not in compliance will be reseeded again. This effort will continue until proper germination is achieved. This is in order to release the certificate of occupancy. Date:____/____/____ It is therefore the responsibility of

(Signature)_____, who is the
(☐) Owner (☐) Builder (☐) Developer of the said site to ensure that all of the disturbed areas will have the vegetative coverage in compliance within the 90-day period after the certificate of occupancy is issued. If, per se, proper vegetation is not achieved and there are no legitimate efforts to achieve final stabilization, a citation will be issued by Code Enforcement.
